## Polyester pumping stations

*Control panels defined according to power*

### Descriptions and references

Control panels for two 400-Volt three-phase pumps (according to desired options)

Panel reference	Outer casing dimensions l x h (mm.)	Height of base mm.	Maximum power Kw
CS202P_	535 x 525	600	5,5
CS204P_	435 x 645	500	5,5
CS206P_	535 x 745	500	5,5
CS207P_	535 x 745	500	11
CS208P_	635 x 845	500	5,5
CS209P_	635 x 845	500	11
CS210P_	850 x 1055	500	5,5

The all-in-one panel is self-extinguishing and IP66 watertight. It is made of fiberglass-reinforced polyester, hot pressed, with smooth finish.

All panels are fitted with **2 doors**:

- 1 • **One inside door (A)**  
housing all the control devices
- 2 • **One outer door**  
with 2 1242E-type locks with key
  - **either transparent (B)**  
in tempered glass, ref.: CS20xPV
  - **or solid (C)**, ref.: CS20xPP

Our control panels are installed on a polyester **base (D)** with a lockable **inspection cover (E)**.
